SARASWATHY G

UI UX Designer

Creative UI UX Designer facilitating and supporting human interactions with complex systems and software. Maintains user-centric designs while adhering to prescribed interface principals and related development goals. Dedicated to creating inviting and unintimidating interfaces for everything from simple open-source applications to complex proprietary systems.

Experience

2023 - Present

Ardens Business Solutions Pvt Ltd

UI UX Designer

- As a UI/UX designer at ABShrms, my role is to create visually appealing and user-friendly interfaces for the company's human resources management software. Creating wireframes and prototypes, and designing the final user interface.
- Additionally, I have collaborated with the development team to ensure that the final product is aligned with the company's goals and vision.
- Staying up-to-date with industry trends and best practices in UI/UX design to ensure that ABShrms software remains competitive and meets the needs of its users.
- In Addition, I have also created posters to post on ABShrms social media channels. These posters likely feature eye-catching graphics and messaging that promotes the company's brand and services. By creating visually appealing social media content, I have been able to contribute to increasing ABShrms online presence and engaging with potential customers.

2022- 2023

Freelance

UI UX Designer

- I worked as a freelancer at freelancer.com and was involved in a project.
- Worked in a project called "KUBERLEARN", a e-commerce website learning platform in Tamil.
- Designed for Both Mobile And Web App Design Using Figma.
- In addition, I participated in many contests such as Logo designing contests.
- And participated in UI UX Design challenge organized by Crowwwn.com.

2021- 2023

Cognizant Technology Solutions Pvt Ltd

Programmer(QE&A)

- Developing test plans and test cases based on software requirements.
- Executing test cases and documenting results.
- Identifying defects and working with development teams to resolve them
- Participating in the design and development of testing processes and procedure.
- Conducting regression testing to ensure that defects have been fixed and new functionalities consequences.
